

AI Meme Token (\$BOT)

Whitepaper

Version 1.0

AI Powered. Meme Fueled. Community Driven.

Official Information

Token Name: AI Meme Token

Ticker: BOT

Blockchain: Solana

Contract Address: 7fCFSFDvE6uc9WeEqjEgLxXAdRUwdxg9ucTFLQbAtGtY

Website: <https://aimemetoken.com>

X: <https://x.com/memebottrade>

Telegram: <https://t.me/AiMemeToken8426>

1. Introduction

Artificial Intelligence is transforming industries around the world. AI Meme Token (\$BOT) combines AI, community, and long-term ecosystem development. A private AI-powered trading system operated by the project team is intended to support the ecosystem through development, operations, and strategic buybacks and burns. The trading software is not offered to token holders.

2. The Problem

Many meme coins rely on short-term hype, have no sustainable funding model, and often disappear shortly after launch. AI Meme Token aims to build a transparent, long-term ecosystem.

3. The \$BOT Solution

The project combines Artificial Intelligence, Solana, community growth, buybacks, and token burns. The focus is on building a sustainable ecosystem instead of relying solely on speculation.

4. How the AI Trading Bot Works

The AI trading bot is designed to monitor markets, identify opportunities, execute algorithmic strategies, adapt to changing conditions, and improve over time. Trading strategies remain proprietary. Ownership of \$BOT does not provide ownership of or access to the AI trading software.

5. Profit Allocation

Intended allocation of net trading profits:

- 70% AI Development & Reinvestment
- 10% Maintenance & Operations
- 20% \$BOT Buybacks & Burns

6. Tokenomics

Blockchain: Solana

Ticker: BOT

Supply: 314,159,265 BOT

Contract Address: 7fCFSFDvE6uc9WeEqjEgLxXAdRUwdxg9ucTFLQbAtGtY

Launch Target: August 4, 2026 (subject to readiness and market conditions).

7. Baby AI Meme Token (\$BABYBOT)

Before the planned launch of \$BOT, the project plans to launch Baby AI Meme Token (\$BABYBOT) on Pump.fun to help build the community and ecosystem. After the launch of \$BOT, the project intends to purchase \$BABYBOT from time to time. Any acquired \$BABYBOT may later be sold to help fund AI development, infrastructure, marketing, community growth, and ecosystem expansion. These statements describe project intent and are not guarantees of future purchases, funding, token prices, or returns.

8. Liquidity & Security

The project emphasizes transparency, community-first development, long-term AI development, and a planned 2-year liquidity lock. Security and responsible infrastructure management remain priorities.

9. Roadmap

Phase 1: Website, Telegram, X, Community.

Phase 2: Launch BABYBOT.

Phase 3: Launch \$BOT.

Phase 4: AI Expansion.

Phase 5: Ecosystem Growth.

10. Community

The BOT Army is central to the project. The team values transparency, innovation, integrity, and long-term thinking.

11. Risks

Cryptocurrency is volatile. Trading profits are not guaranteed. Participants should never invest more than they can afford to lose.

12. Disclaimer

Nothing in this whitepaper constitutes financial, legal, tax, or investment advice. Ownership of \$BOT does not represent ownership of the AI trading system or a right to receive profits. Descriptions of planned operations reflect project goals and are not guarantees of future performance.
